Why Cleanbill Data?

Comprehensive Coverage

Cleanbill's data gathering is explicitly geared towards finding information for every clinic out there, resulting in the most comprehensive database of Australian GP clinics ever independently assembled.

Credibility

Cleanbill's data has garnered broad support from governments across Australia and has been quoted heavily by the national media, forming the basis of hundreds of stories each year.

Unique Information

Cleanbill is the only organisation in Australia that gathers and maintains clinic-level billing and availability data. No other directory, service or organisation has access to data at this level of specificity and accuracy.

The Products

Cleanbill offers bespoke licences on four levels of data aggregation:

1

Electorate/LGA level

Cleanbill proprietary data showing clinic numbers, availabilities and costs, split by Electoral Division/Local Government Area.

2

Postcode level

Cleanbill proprietary data showing clinic numbers, availabilities and costs, split by postcode.

3

De-identified point level

Cleanbill proprietary data split by clinic, with identifying details removed.

4

Point level

Cleanbill proprietary data, split by clinic.
